INSPECTION NOTES

This report is generated to record a meeting conducted at the WorkSafeBC Terrace office to assist in resolving a disagreement on three topics in front of the [REDACTED] Committee [REDACTED] (minutes) under section 132 of the Worker's Compensation Act.

Attendees were:

[REDACTED]

In determining whether to investigate matters in order to resolve disagreements under Division 4 section 132, the Board will consider:

- the Board's statutory authority to investigate in the particular situation;
- whether there is an immediate hazard that needs to be resolved;
- whether the issue is significant in terms of preventing injuries and illnesses;
- whether there is an alternative method for resolving the issue; and
- whether the Board is likely to be able to resolve the issue.

Where the Board does investigate, the extent and nature of investigations will depend on the circumstances. Not all investigations will involve a visit to the workplace.

With regard to sections 132, the investigating officer will, where applicable, make relevant determinations as to whether the Act and regulations are being complied with or whether an unsafe situation exists. If the disagreement involves matters going beyond what is specifically required to comply with the regulations, the officer may discuss the issue with the parties and suggest options but will not decide the disagreement.

Brief description of disagreements:

ORDERS/ITEMS

An employer who fails to comply with Part 3 of the *Workers Compensation Act*, the *Occupational Health & Safety Regulation*, or WorkSafeBC orders may be subject to monetary or other sanctions as prescribed by the *Workers Compensation Act*.

Orders/Items - Full Details

Order/Item No.1 <input type="checkbox"/>	Status: Outstanding	Cited: WCA115(1)(a)
<p>Regarding the electrical hazard in Reduction this employer has failed to ensure the health and safety of all workers present at the workplace at which this employer's work is being carried out. Specifically:</p> <ul style="list-style-type: none"> - The administrative controls used to assess the electrical hazard in reduction have significant gaps including testing equipment availability/condition, availability of documentation for confirmation/assessment of controls, lack of consistent voltage checks, and inspection/maintenance of air gaps. - Barriers to completion of hot metal route winterized road project have also hindered an integral part of the hazard management plan increasing the likelihood of the hazard of moisture presence. <p>This is in contravention of the Workers Compensation Act Section 115 (1)(a).</p> <p>Every employer must ensure the health and safety of all workers working for that employer, and any other workers present at a workplace at which that employer's work is being carried out.</p> <p><u>Measures to Ensure Compliance:</u> The employer must demonstrate to this officer the controls used to protect workers from the electrical hazard at the Blue zones are effective. The system gaps noted on the previous pages illustrate a need to track and confirm the measures to address this hazard are fulfilled. I refer to the commonly used Plan, Do, Check, Act process that allows a safety management tool to be tracked and confirmed via formal process.</p>		
Order/Item No.2 <input type="checkbox"/>	Status: Outstanding	Cited: OHS4.75
<p>The ventilation system is not balanced to ensure that each space within the [REDACTED] receives an adequate allotment of outdoor air and accommodate the actual or the normally anticipated occupancy of each space.</p> <p>This is in contravention of the Occupational Health and Safety Regulation Section 4.75.</p> <p>The ventilation system must be balanced to:</p> <ul style="list-style-type: none"> (a) ensure that each space within the building receives an adequate allotment of outdoor air, and (b) accommodate the actual or the normally anticipated occupancy of each space. <p><u>Measures to Ensure Compliance:</u> The employer must without undue delay ensure compliance is achieved.</p>		

REFERENCES

In addition to any orders, or other items, and the information provided in the Inspection Notes section in this Inspection Report, the officer may discuss other health and safety issues with the employer arising out of the inspection. The information below sets out the health and safety requirements discussed with the employer, and unless otherwise noted, violations of these requirements were not observed.
